

Dr. Neil Frank

Graduate of Southwestern , a Methodist College
in Winfield, Kansas

Dr. Frank served in the United States Air force,
Weather Officer

Obtained Masters and Doctors in Meteorology, FSU

Worked for National Hurricane center 1961
& Appointed Director in 1974

June of 1987 retired from National Hurricane Center and Joined
Houston's CBS affiliate , Channel 11 ,as the Chief Meteorologist ,
serving another 21 years before retiring in May of 2008

Dr Frank now lives in Fulshear Texas with his wife of 63 years and
have three Children, ten grandchildren, and three great grands.

I have several questions.

1. Do you believe the earth is warming?
2. Do you believe CO₂ is a pollutant?
3. Do you believe the earth's warming is being caused by man through the burning of fossil fuels?
4. Why do you believe what you believe?

Media Research Center

Global Warming Stories
ABC, CBS, NBC
Jan. 1, 2013 – July 1, 2013

92

How many told you the earth has not warmed for
for the last 16 years?

0

The experts they used in their stories favored
man-made global warming by a ratio of 8 to 1

Antarctic

Pres. Obama - Coast Guard - May 20, 2015

“ The Science is indisputable

- more intense droughts.....

- rising seas.....

- more extreme storms.....

- by mid century Artic summer could be
Ice free.....

Doubling the pace at which we cut
carbon pollution”

Fact-Checks

1. The Antarctic ice is increasing
2. The Arctic ice has been stable since 2007
3. Worldwide decrease in hurricanes/typhoons/cyclones during the past three decades
4. A decrease in tornadoes during the past 20 years
5. The number of droughts has been normal
6. Polar bears are thriving
7. Sea level has leveled off

What is the global warming controversy?

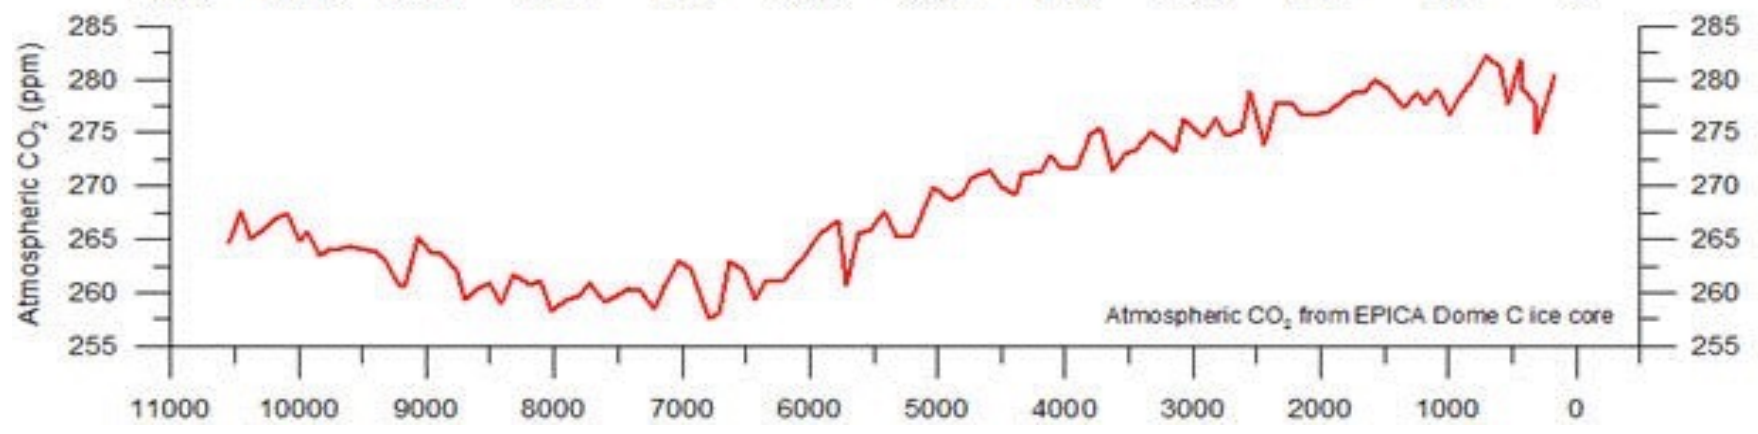

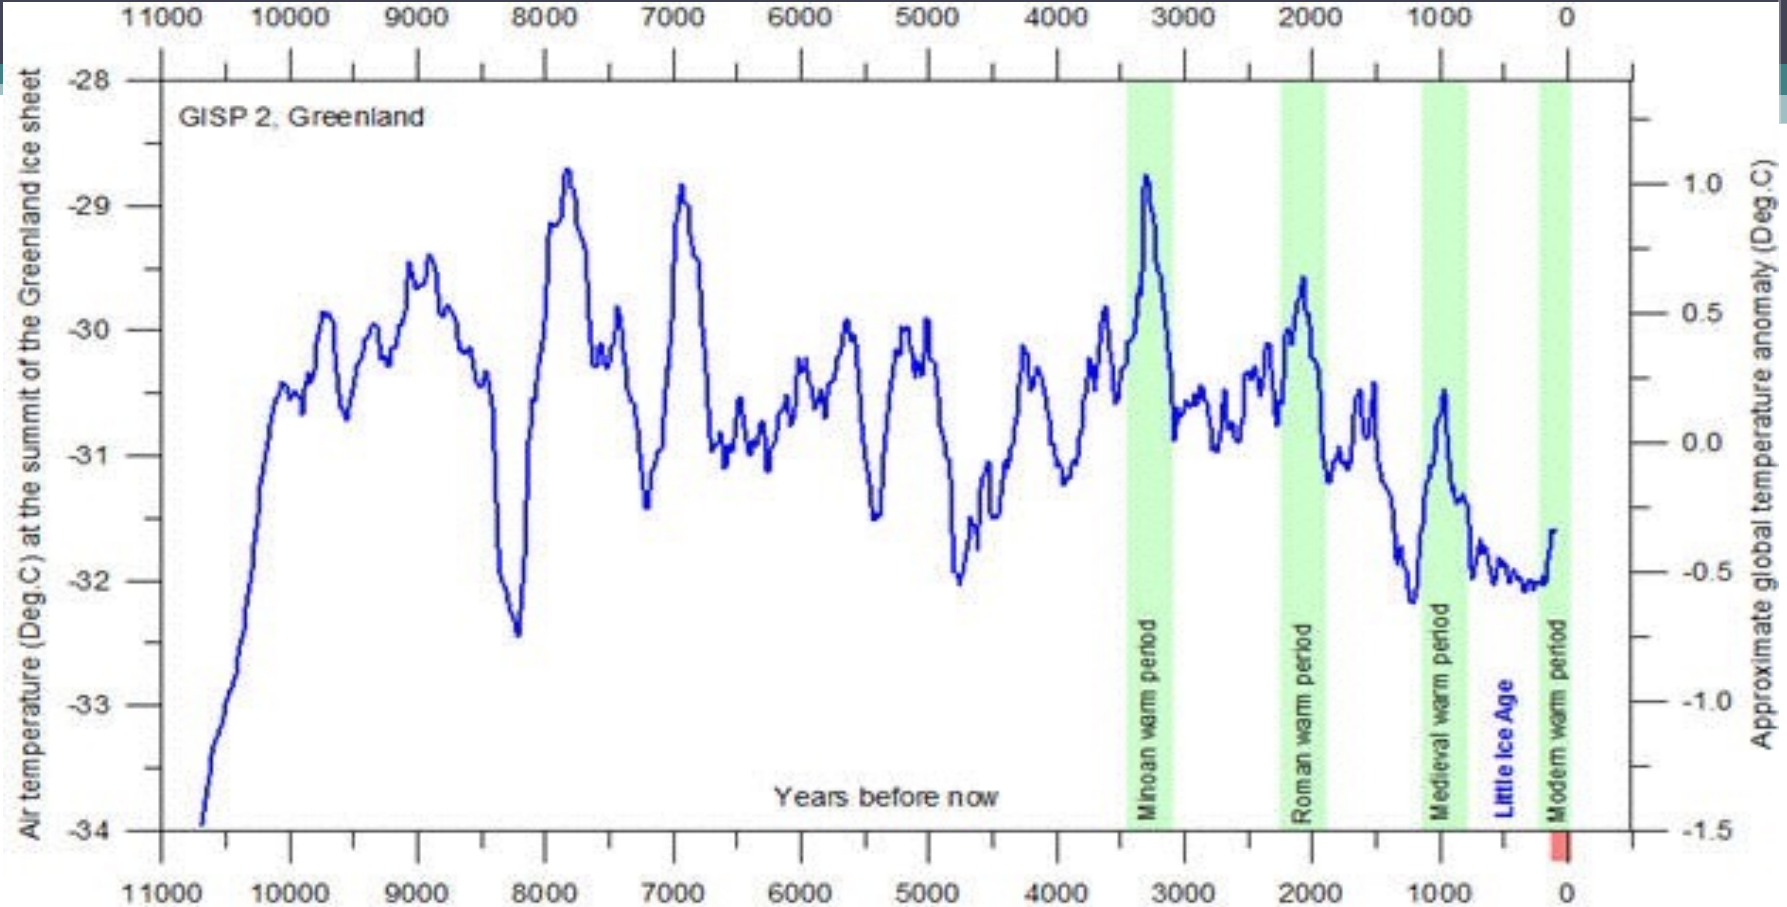

It is not a question of the earth warming. It has been for over 150 years as we emerge from the Little Ice Age.

The debate is over what is causing the warming. Is it CO₂ or natural cycles.

The intent of this presentation is to show you that data support natural cycles and the case for CO₂ very weak.

What does history tell us about the earth's temperature?

The earth's temperature occurs in cycles. The longest cycle we are aware of is the ice age. An ice age lasts about 100,000 years followed by a 10,000 year warm period. We have been in the current warm period almost 12,000 years.

CLIMATEGATE

THE CRUTAPE LETTERS

"I've just completed
Mike's Nature trick..."

"Kevin and I will keep them out
somehow - even if we have to redefine
what the peer review literature is!"

"...If you think that Saiers is in the
greenhouse skeptics camp, then, if we
can find documentary evidence of this,
we could go through official AGU
channels to get him ousted."

"...don't pass it along "

"...hide the decline"

"...can't account for the lack of warming"

"Leave it to you to delete as appropriate"

"I will be hiding behind them"

"...delete any emails you may have had..."

It's Time to Debate Global Warming

These 58 experts don't believe global warming is a crisis. Watch videos of their presentations at nine international conferences on climate change, available for free online at climateconferences.heartland.org

Habibullah Abdussamudov, D.Sc. UNESCO
Head of the Space Research Laboratory at the Physics Observatory and head of the Russian-Uzbekistan project Astromerica on the Russian ground of the International Space Station. He is the author of more than 300 scientific publications.

J. Scott Armstrong, Ph.D. UNESCO
Professor at the Wharton School, University of Pennsylvania, a founder of the *Journal of Forecasting*, and a leading expert on forecasting and international reputation on forecasting.

Jerry Aronst, M.D. UNESCO
A paleontologist in private practice, an adjunct scholar at the Competitive Enterprise Institute, and a scientific advisor to the American Council on Issue and Health.

Ron Arnold UNESCO
Executive vice president of the Center for the Defense of Free Enterprise, author of eight books, researcher and editor of two books, and editor of a business magazine.

David Arvey UNESCO
Senior fellow of the Hudson Institute, previously a senior analyst in the U.S. Department of State (1980-88), where he was the National Intelligence advisor to the President in 1993.

Tim Ball, Ph.D. UNESCO
Former professor of climatology, University of Winnipeg, author of *The Changing Geopolitics of Climate Change*.

Robert Balling, Ph.D. UNESCO
Professor in the climatology program in the School of Geographical Sciences at Arizona State University.

Joe Bannard UNESCO
Managing, on-chief forecaster at Weather & Analytics, long-time weather forecaster for ABC/Weather (1978-2002).

E. Carlos Beiswenger, Ph.D. UNESCO
National spokesman for The Cornwall Alliance for the Stewardship of Creation, editor of *The Cornwall Alliance's* electronic newsletter, and author or co-author of several major papers and articles on global warming shared by The Cornwall Alliance.

Larry Bell UNESCO
Endowed professor of space architecture at the University of Houston, where he founded and directs the Sandhara International Center for Space Architecture. Author of *Climate of Creation: Politics and our Bolded-Up Global Warming Fiasco*.

Christopher Benckze UNESCO
Columnist at the *Sunday Telegraph* (London) and author of *The Real Global Warming Disaster: Is the Obvious Real? Climate Change: Turning Out To Be A Major Climate Change Hoax In History?*

Robert L. Beaudin, Jr. UNESCO
Founder and CEO, Institute for Energy Research, adjunct scholar, Cato Institute, adjunct scholar, Competitive Enterprise Institute, visiting fellow of a Institute of Economic Affairs in London, and honorary vice research fellow at the Center for Energy Economics at a University of Texas at Austin.

Samy Bell UNESCO
New Zealand historian and politician, a Member of Science & Technology and Minister of Energy, and current chairman of the New Zealand Climate Commission.

Robert M. Berner, Ph.D. UNESCO
Management, marketing, media, politics, and environmentalist, has held several academic staff positions at the University of Oregon (Dunsmuir) and the Clark Institute (Clatskanie), where he was professor and head of the School of Earth Sciences between 1982 and 1998.

George Christensen, MP UNESCO
Member of the Australian Parliament representing Dawson, Queensland in the House of Representatives since 2008. He is a member of the National Party.

John Coleman UNESCO
America's best-known TV weatherman, the original weatherman on *Good Morning America*, and founder of The Weather Channel, serving as its CEO and president during the stormy and its last year of operation.

Walter Cunningham UNESCO
Pilot of Apollo 7, the first manned flight test of the Apollo Program to land a man on the Moon. He is a retired Marine Corps flight instructor with the rank of colonel, a successful businessman, entrepreneur, venture capitalist, lecturer, and author.

James DeAngelis UNESCO
English columnist who writes for *The Times*, *The Daily Telegraph*, and *The Spectator*. He has published several novels and four political books, including *Warfare: The Great Adventure's* Four Civilizations.

Paul DeBevoise UNESCO
Senior fellow with the Committee for a Constructive Tomorrow and Center for the Defense of Free Enterprise, author of *Environmental Green Power*, *Real Growth* (Oxford Press, 2002).

Devo DeBevoise, Ph.D. UNESCO
Emeritus professor of geology at Western Washington University, where he has conducted research on global climate change in various parts of the world for the past 40 years.

Myron Ebell UNESCO
Director of energy and global warming policy at the Competitive Enterprise Institute, the Center for Global Climate Change, representing more than two dozen nonprofit groups in the U.S. and abroad that oppose global warming legislation and oppose energy rationing policies.

Joshua Eilander, Ph.D. UNESCO
Former visiting fellow with the American Enterprise Institute, the first fellow in the Center for the Political Economy Research Center in Bozeman, Montana, author of *The Progressing State of the World*.

Fred Goldberg, Ph.D. UNESCO
Associate professor at the Royal Institute of Technology in Stockholm and CEO of the Swedish Polar Institute.

Stanley Goldsberry UNESCO
Horticulture researcher based in Miami, Florida. His primary research has been examining climatic factors that influence the viability of hurricane activity in the Atlantic, not international or multi-decadal climate trends.

Steve Goreham UNESCO
Executive Director of the Climate Science Coalition of America and author of *Climate's Secrets, Common Sense, and the Epic Conspiracy: Honor Tips, and The Mad, Mad, Mad, Mad, World of Climate Change*.

Tom Harris UNESCO
Executive director, International Climate Science Coalition, former executive director of the National Resources Stewardship Project (Canada), instructor in environmental science at the Faculty of Science at Carleton University in Ottawa, Canada.

Howard Hayden, Ph.D. UNESCO
Professor of physics emeritus in the Physics Department of the University of Connecticut, editor of *The Energy Journal*, author of *Primer on CO2 and Climate* (2007) and *Primer on Renewable Energy* (2007).

Roger Hanson, MEP UNESCO
Member of the European Parliament representing the UK's East Midlands Region for the UK Independence Party (UKIP). He graduated from the University of Cambridge in 1965 with a degree in mathematics.

Craig Hill, Ph.D. UNESCO
Founder and chairman of the Center for the Study of Carbon Dioxide and Global Change, author of *Climate Change: A Realistic and Other Books on Climate Change*.

Richard A. Keen, Ph.D. UNESCO
Emeritus meteorology instructor at the University of Colorado, academic scientist on the James (Able) ...

Madhav Khosla UNESCO
Former research scientist from Environment Canada, presently on the editorial board of the *Journal of Natural Resources* (Ottawa).

William Kinison UNESCO
Former head of Australia's National Climate Change Center and consultant to the World Meteorological Organization.

David W. Kravitz, Ph.D. UNESCO
Senior policy analyst in energy economics and climate change at The Heritage Foundation's Center for Energy Studies, and previously a professor of economics for 23 years at James Madison University in Harrisonburg, Virginia.

Hans Van der Kloos, Ph.D. UNESCO
Former president of the Czech Republic, first elected in February 2000. An activist by education, he has worked on research at the Institute of Economics of the Czech Academy of Sciences and at the Czechoslovak State Bank.

David Leggett, Ph.D. UNESCO
Professor in the Department of Geography at the University of Delaware and an adjunct professor in the Physical Ocean Sciences and Engineering Program and the Department of Applied Economics and Statistics.

Jay Lathrop, Ph.D. UNESCO
Senior fellow and science director of the Heartland Institute, an internationally recognized speaker, scientist, and author who has testified before Congress on more than three dozen occasions on environmental issues and with nearly every agency of the federal government and with many foreign governments.

Markus Lewis, Ph.D. UNESCO
Senior fellow at the Competitive Enterprise Institute, where he writes on global warming, energy policy, and other public policy issues.

Richard Lindzen, Ph.D. UNESCO
Sheldon Professor of Atmospheric Sciences, Emeritus, at Massachusetts Institute of Technology, and Distinguished Senior Fellow with the Cato Institute.

Craig Lovelock, Ph.D. UNESCO
Worked at the Department of Energy Laboratories before joining the National Council for Air and Stream Improvement in 1996. He has published more than 150 peer-reviewed papers in forestry, ecology, geophysics, modeling, and other fields.

Anthony Lopez, Ph.D. UNESCO
Professor of atmospheric science in the Department of Earth, Atmospheric, and Environmental Sciences at the University of Missouri, and past chair and director of graduate studies for the department.

Jennifer Mansbach, Ph.D. UNESCO
An Australian biologist who has worked for governments and industry. Currently a research fellow in the Center for Plant and Water Science at Central Queensland University, Australia.

Patrick Michaels, Ph.D. UNESCO
Director of the Center for the Study of Science at the Cato Institute, a past president of the American Association of Economic Geologists, and former program chair for the Committee on Applied Climatology of the American Meteorological Society.

Christopher Monckton UNESCO
Third Vice-Chairman of the British Global Warming Action Committee and Public Policy Institute. He has held positions with the British press and in government, as a press officer at the Conservative Central Office, and as Prime Minister Margaret Thatcher's policy adviser.

Patrick Moore, Ph.D. UNESCO
Co-founder, vice, and chief scientist of Global Warming Solutions. Founding member and former president and international director of the *Group*, author of *Cooperation: A Group's Progress: The Making of a Successful Environmentalist*.

Maxine Noss UNESCO
Executive director of Energy Matters Action Center Inc. and its companion educational organization, the Citizens' Alliance for Responsible Energy.

James Neve UNESCO
An atmospheric and geoscientist based in Cambridge, Massachusetts, he is the managing editor in the area of solar and stellar physics for the *Journal of New Astronomy* and author of *The Massive Minimum and Variable Sun-Earth Connection*.

Ray Spencer, Ph.D. UNESCO
Principal research scientist for the University of Alabama in Huntsville and the U.S. Space & Telescopes for the Advanced Microwave Scanning Radiometer (AMSR-2) on NASA's Aqua satellite. In the past he has worked as a satellite scientist for the Center for NASA Marshall Space Flight Center in Huntsville, Alabama.

Brian Stenhouse UNESCO
For 20 years the San Francisco Bay Area's top weather meteorologist and science reporter, he is a writer of *Climategate: A History Meteorology Explains The Global Warming Scam*.

George H. Taylor, SCIM UNESCO
President of Applied Climate Services, former director of the Oregon Climate Service at Oregon State University, former member of the Board of Chief Consulting Meteorologists (1980-81), and former President of the American Association of State Climatologists (1998-99 and 1999-2000).

James M. Taylor UNESCO
Senior Fellow for The Heartland Institute and former managing editor of *Environment by Choice News*, a national monthly environmentalist. He writes weekly columns addressing environmental issues for *Forbes*, *The Wall Street Journal*, and other national publications.

David Tarasick, Ph.D. UNESCO
Professor of atmospheric and planetary science at Boston Hill Institute at Souths University Business, Tarasick is an authority on the policy study labor union issues, and macroeconomic stabilization policies.

Paul E. Waggoner, Ph.D. UNESCO
A distinguished scientist at the Connecticut Agricultural Experiment Station, New Haven, who has been formerly director of the research in plant micro-meteorology, economics and leaf green plant disease epidemiology, and land use by cities, crops, and forests.

Anthony Watts UNESCO
A 20-year broadcast meteorology veteran and co-founder of the Royal Dutch Weather Network, he is a frequent commentator on the U.S. weather, weather stations and is host of the popular science blog, *We Up With This*.

Thomas Wynnoff UNESCO
Trained as a meteorologist at New York University and at the Royal Dutch Weather Network in Amsterdam, he worked for five years through NASA before, during, and after the moon landings. He is currently involved in giving science and meteorology lectures at NASA Field Centers and universities throughout the world.

William Swann, Ph.D. UNESCO
An astrophysics and geoscientist based in Cambridge, Massachusetts, he is the managing editor in the area of solar and stellar physics for the *Journal of New Astronomy* and author of *The Massive Minimum and Variable Sun-Earth Connection*.

Robert Smeets, Ph.D. UNESCO
Principal research scientist for the University of Alabama in Huntsville and the U.S. Space & Telescopes for the Advanced Microwave Scanning Radiometer (AMSR-2) on NASA's Aqua satellite. In the past he has worked as a satellite scientist for the Center for NASA Marshall Space Flight Center in Huntsville, Alabama.

George H. Taylor, SCIM UNESCO
President of Applied Climate Services, former director of the Oregon Climate Service at Oregon State University, former member of the Board of Chief Consulting Meteorologists (1980-81), and former President of the American Association of State Climatologists (1998-99 and 1999-2000).

James M. Taylor UNESCO
Senior Fellow for The Heartland Institute and former managing editor of *Environment by Choice News*, a national monthly environmentalist. He writes weekly columns addressing environmental issues for *Forbes*, *The Wall Street Journal*, and other national publications.

David Tarasick, Ph.D. UNESCO
Professor of atmospheric and planetary science at Boston Hill Institute at Souths University Business, Tarasick is an authority on the policy study labor union issues, and macroeconomic stabilization policies.

Paul E. Waggoner, Ph.D. UNESCO
A distinguished scientist at the Connecticut Agricultural Experiment Station, New Haven, who has been formerly director of the research in plant micro-meteorology, economics and leaf green plant disease epidemiology, and land use by cities, crops, and forests.

Anthony Watts UNESCO

Forbes magazine Survey

1077 earth scientists

64% believe warming is natural

In 2013, 47 retired NASA
Scientists and astronauts
challenged NASA's position
on global warming.

Interior Secretary Sally Jewel 2014

“I hope there are no climate change deniers in the Department of Interior”

Recently a number of hard-core
warming supporters have become
skeptics

Dr. Judith Curry – National Press Club in D.C. 9/2014

“If I were a non-tenured scientist, I would fear for my job! But I am a senior scientist with retirement in sight, so I can afford to do what I want, say what I think”

Dr. Joanne Simpson

“Since I am no longer affiliated with any organization nor receive any funding. I can speak frankly and as a scientist I remain skeptical.”

Dr. Patrick Moore

(founder of Greenpeace)

“Confessions of a Greenpeace Dropout”

There is no definitive scientific proof, through real world observations, that CO₂ is responsible for warming of the globe.

The Heartland Institute has sponsored 10 international Conferences for skeptics over the last several years. 650 people attended the one in Las Vegas last July.

**9TH INTERNATIONAL
CONFERENCE ON
CLIMATE
CHANGE
JULY 7-9, 2014
LAS VEGAS, NEVADA USA**

PRELIMINARY PROGRAM

Who is pushing Global Warming?

1. Some scientist truly believe,
particularly the modelers
2. Environmentalist (EPA)
 - Dr. Jay Lehr
 - Dr. Alan Carlin

“Environmentalism gone Mad”

Who is pushing Global Warming?

3. Profit: Global Warming (G.W.)
is a huge business

- U.S. spent \$150 billion last 15 years
- U.S. budget for 2014 was \$18 billion

★4. International pressure for a
One World Government

Maurice Strong

Chairman first international
meeting on Global Warming
Rio 1992

“Isn’t the only hope for the planet,
that the industrialized civilizations
collapse? Isn’t it our responsibility
to bring that about?”

Maurice Strong

Chairman first international meeting on Global Warming Rio 1992

“Our concept of ballot-box
democracy may need to be
modified to produce a strong
central government capable
of making difficult decisions”

Strobe Talbert – Deputy Sec. of State under Clinton

“Nationhood as we know it will be
obsolete – all states will recognize a
single global authority National
Sovereignty wasn't such a good idea”

Vice President Biden
Defense Secretary Hagel
2014

We are moving towards a new world order

Ottmar Odenhofer (UN IPCC Official-Lead author of the 4th IPCC Report) Interview with German Newspaper Nov 18, 2010

“We redistribute de facto the world’s wealth by climate policy. One has to free oneself from the illusion that international climate policy is environmental policy”

Dana Rohrabacher

U. S. Representative , California

“Global Warming is a fraud being
used as a tool to create a
Global Government”

Christiana Figueres

U.N Climate Chief

Chairman, Paris Conference 2015

We are setting ourselves the task of changing the economic model that has reigned in the world for the last 150 years

What does that mean?

The real goal of environmental activists is not to save the world from ecological calamity, but to destory capitalism

What do we have to show for the billions of dollars we are spending?

Numerical models that can't make accurate forecasts and numerous failed green energy projects

STONEWALLED

My Fight for Truth
Against the Forces
of Obstruction,
Intimidation, and
Harassment in
